

Report a Wildfire Sighting

SAMPLE TEXT - NOT APPROVED ADVICE. This page demonstrates layout and must receive editorial and subject-matter review before use.

Move to a safe location first. Replace this sample with verified instructions from the responsible agency.

Before making a report

Describe your location and where the smoke or fire appears to be.

Note only what you can observe safely: visible smoke or flame, apparent direction, and nearby landmarks.

Do not approach a hazard to collect more details.

Details to have ready

Your callback information, if requested

Where and when you observed the condition

What is changing, if anything

A safe route away from the area

Reporting method: [VERIFY AND INSERT OFFICIAL LOCAL INSTRUCTIONS]

Do not insert a number, frequency, or agency endorsement without documented review.
