

Sandbagging Basics

SAMPLE TEXT — NOT APPROVED ADVICE. This two-sided layout demonstration requires technical and local review.

! WARNING — URGENT ACTION

Do not enter moving water or work where a slope, wall, roadway, or escape route may become unsafe. Reviewer must replace or confirm this wording.

PREPARE

- ☐ Use gloves and suitable footwear
- ☐ Choose stable ground away from traffic
- ☐ Keep a clear route away from the work area

SAMPLE PLACEMENT SEQUENCE

- 1 Clear loose debris only if it is safe to do so.
- 2 Place each bag flat and close gaps between bags.
- 3 Stagger joints in later rows rather than lining up seams.

Sandbagging Basics — continued

SAMPLE TEXT — NOT APPROVED ADVICE. Back page demonstrates checks, limits, local facts, and citations.

CHECK THE WORK

- ☐ Ground remains stable
- ☐ Bags remain flat
- ☐ Seams are staggered
- ☐ Exit route remains open

top view

REASSESS CONDITIONS

- 1 Observe from a safe position.
- 2 Stop if water rises or the installation shifts.
- 3 Leave before the escape route is threatened.

! WARNING — URGENT ACTION

This handout is not a substitute for directions from emergency personnel. Exact stop-work criteria require subject-matter review.
